LIST EQUIVALENT VALUES
FOR FIVE-YEAR PLAN TARGETS

EXPLAINS 1954 GOALS -- Budapest, Szabad Nep, 19, 25 Sep 51

To enable the populace to understand the scope of plan figures, targets of the augmented Five-Year Plan have been listed with the following equivalents:

By 1954, livestock will have been increased to 2.4 million head of cattle, 6 million hogs, and 25 million fowl, or an equivalent of one steer, two pigs, and ten fowl per family. With the construction of 356 new clinics, one new clinic will be completed every 5 days; one new factory also will be completed every 5 days. In 1954, 1,420,000,000 bricks will be manufactured, enough to build 3,087 five-story apartment houses, and the 10 billion forints allotted to transportation are sufficient to build five subways or 312 railroads the size of the Csepel line.

Steel production in 1954 will have risen to 2,200,000 tons, enough to make 25,700 kilometers of railroad track or 297 bridges similar to the Boráros bridge. Cotton planting will increase to 200,000 cadastral yokes, raising cotton production to 900,000 quintals, or enough to make 200,000 kilometers of cloth, sufficient for manufacturing 20 million men's shirts, 20 million women's dresses, and 10 million girls' dresses, or six shirts for every man and boy, and six dresses for every woman and girl in the country.

Three fourths of the 27,500,000 tons of coal to be produced in 1954 will be mined by machines. This is enough coal to heat 5,500,000 two-room apartments or to drive 6,800,000 [sic] trains with 1,000-ton loads from Budapest to Szolnok. The increased electrical power output of 6 billion, 50 million kilowatt-hours will be equal to 31 times the lighting needs of the city of Budapest and, by 1954, 26,100 tractors will be working on the state farms, or enough tractors to plow an area equal to the size of Hungary in 16 days.

LISTS PURCHASING POWER OF ONE-BILLION-FORINT LOAN -- Budapest, Szabad Nep,
27 Sep 51

If diverted to a single purpose, one billion forints under the plan loan would pay for: construction of housing for 28,600 families; 3,650 turret lathes and 6,000 milling machines; 5,903 Ajtai-Szilard rasping and loading mine combines; 3,000 harvester-thresher combines and 26,100 thirty-five horsepower agricultural tractors; or 372 No 424 express steam locomotives and 1,250 trolley-busses.
